

I wish to express concern over the use of the new broadcast service known as Low Power FM (LPFM). I'm worried that LPFM will take over my local FM translator.

If that happens I will lose access to K-LOVE. K-LOVE is the only Positive and Encouraging radio in this area. If you were to replace it with an LPFM station, this community would lose that positive voice.

I believe we as a community need more stations like K-LOVE to fill an ever growing void. K-LOVE has upright values that shine in the dark world around us.

Please don't allow LPFM to replace FM translators. It would be a terrible loss.
